

Smarter Skies, More Resilient Systems: The Future of Commercial Aviation

National Academy of Engineering Regional Meeting
May 19-21, 2026 | Duke University

William C. Sandifer

Executive Vice President
and Chief Development Officer
Raleigh Durham Airport Authority

Bill Sandifer oversees all aspects of the implementation of Vision 2040 including facility planning and design, program management, construction, as well as all environmental compliance and sustainability initiatives of the Authority. He brings over 39 years of comprehensive airport management and consulting experience to RDU. Prior to assuming the role as Chief Development Officer on April 1, 2023, he served as the Authority's Chief Operating Officer since 2014. Prior to joining the Authority he was the Senior Vice President and National Aviation Director at Reynolds, Smith and Hills where he led a global Airport consulting practice. He holds a Bachelor of Science Degree in Aviation Management from Eastern Michigan University, a Master of Business Administration from the University of Michigan and a Juris Doctor from Michigan State University. He is a licensed attorney in the State of Florida, an Accredited Airport Executive, and holds a commercial pilot license with instrument and flight instructor rating/
